BENEFITS OF THE SECURE FORM

SECURE SUBMISSION USING A STANDARD WEB BROWSER

Easy to use

Submit large files.

No separate software or plug-ins required.

Access using a standard web browser.

Share information securely

Secure transmission of confidential information.

Encryption and optional two-factor authentication.

Complies with GDPR guidelines.

SECURITY AND PRIVACY

PROCESSING VIA THE SECURE BASTION 365 PLATFORM

Encryption

Your data is encrypted and sent to the secure Bastion 365 platform for processing.

Confidential documents are protected against unauthorised access during transmission and storage.

Optional verification

If required, an additional verification step, such as a verification code (2FA), confirms the sender’s identity.

Use of your data

Our organisation uses the submitted data only for the purpose for which you provided it.

European environment

All communication takes place over a secure connection.

Processing takes place within a controlled European environment.
